Project Plans

Whether you are an experienced Turner or a beginner, the following pages will provide you with some helpful project sheets to make.

The following links take you to PDF formatted documents that will enable you to print off quality prints as well. They are larger files and may take a few moments to load.

Some of the information contained on these pages is extracted from the Guilds Book on Woodturning titled "**The Beginners guide to Woodturning**" and copies are available for NZ \$20.00
