Keith Hastings sent me a document with some of his stunning segmented work to share, enjoy.

---

These are photos of a few of my segmented and open segmented work and a little bit about them. All my work is finished off with Teak oil.

1. **Segmented large Greek Vase.**

Segmented Greek Vase 230 mm diameter x 380 mm high turned from Fijian Kauri and

Mahogany finished off with Teak oil.

2. **3D Segmented Bowl.**

It's a 3 dimensional segmented bowl turned from Fijian Kauri 220 mm diameter x 90 mm

high the 3D part is constructed from Kahikatea, Kauri and Mahogany cut into diamond shaped segments glued and finished off with Teak oil.

### 3. 3D Platter.

3 Dimensioned segmented platter 300 mm in diameter with segmented Kauri outer surround the 3D part is constructed from Kahikatea and Mahogany.

### 4. Oak Segmented Clock.

The Oak clock started out as a solid Oak platter that warped and buckled so badly that I couldn't turn it out, so cut it up into segments and reconstructed it as a segmented clock 350 mm in diameter finished with Teak oil.

**5. Open Segmented Bowl.**

Open Segmented Fruit Bowl turned from Oak with a Kauri rim and base, this started out as a solid Oak bowl which buckled and warped so badly I couldn't turn it out so I cut it up into segments, reconstructed it and then re-turned it 350 mm in diameter x 150 mm high.

**6. Open Segmented Christmas Lantern.**

Christmas Lantern is open segmenting Rimu and Fijian Kauri. 140 mm diameter x 200

mm high.

**7. Segmented Fruit Bowl.**

Segmented fruit bowl turned from Kahikatea and Fijian Kauri 260 mm diameter x 90 mm

high. *Keith Hastings*

**8. Segmented Oriental Bowl.**

Oriental Bowl 150 mm in diameter x 150 mm high, turned from Radermachera ( China

Doll ).

*Keith Hastings*

**9. Segmented Teardrop Urn.**

Teardrop segmented urn turned from Tasmanian Oak and Jarrah 150 mm diameter x 150

mm high.

**10. Wooden Flower**

Wooden flower I turned from Macrocarpa a few years ago using the inside outside turning technique. Something a little bit different from turning a bowl.
