

LITTLE BOX

The dimensions drawn here start with a block 90 x 90 x 55 mm and are for the box to include a glass butterfly as made for the Beads of Courage Programme. The space for the butterfly is 65mm dia and 20mm high.

The drawings on this page are full size. Print the page so that the measures at the lower left are correct.

The Simple Box project sheet details the process used to make this box.

The top may be dished or domed or have a decoration added such as paua, dremel, pyrography or chatter work.

The lid should not be a tight fit.

The underside of the lid may be flat or slightly domed.

The underside of the box should be slightly domed to clear the table surface.
